INTRODUCTION – DOMOGENIE

Domogenie – Smarter Living, Simplified

Domogenie is a modern smart home automation brand dedicated to creating intelligent, connected, and affordable living experiences. Built on Tuya technology, Domogenie products bring seamless control and convenience to every home.

Our mission is simple to make smart living accessible to everyone. Every Domogenie product is designed with a perfect balance of innovation, reliability, and elegant design, ensuring they fit beautifully into modern interiors.

From smart relays and curtain controllers to the latest smart switches, Domogenie focuses on easy installation, compatibility with Alexa and Google Home, and long-term dependability.

INTRODUCING
THE DOMOGENIE SMART SWITCH SERIES

We're excited to launch our new Smart Switch Series – designed to deliver a premium smart experience at an economical price.

These switches combine sleek glass-touch design with advanced connectivity through Zigbee, Tuya and Wi-Fi, offering effortless control via voice assistants, mobile apps, or manual touch.

Perfect for both new homes and retrofits, Domogenie Smart Switches are built for easy installation, reliability, and style. They integrate seamlessly with existing smart home systems, making automation simple and affordable for everyone.

SMART LIFE, SMART LIVING

Discover the power of seamless automation with the Domogenie Smart App, built on the Tuya platform for reliability, speed, and intuitive control.

App Features

- Unified Control – Manage all your smart devices in one app – from lights and fans to curtains and sensors.
- Voice Assistant Integration – Works perfectly with Alexa and Google Home for hands-free control.
- Scene & Routine Automation – Create personalized scenes and schedules that fit your lifestyle.
- Real-Time Status – Instantly monitor device activity, power status, and connectivity.
- Easy Sharing – Give access to family members with simple multi-user sharing.
- Smart Notifications – Stay updated with instant alerts and status updates.
- Secure Cloud Sync – Reliable, encrypted, and always connected via the Tuya cloud.
- Sleek Interface – Modern, responsive design with effortless navigation

SPECIFICATION

Product Name	: Glass Series Touch Switch
Product Size(mm)	: 86x86x35.7
Input Voltage	: 230VAC/50Hz
Connection	: N+L line
Fan	: 100w
Dimmer	: 100w
Relay Rating	: 30A
Wireless Standards	: WiFi / ZigBee
Panel Material	: Tempered Glass
Frame material	: Aluminium frame
Operating Temperature	: -20°C~50°C
Countdown/Schedule	: supported
Touch Mode	: Bistate/Monostate
Backlight Color	: RGB
Backlight Brightness	: Manual/ALS Auto
Glass Colour	: Black/White/Custom Colour
Frame Colour	: Black/Silver/Gold
